

Pressure Gauges

www.txtestplugs.com

Liquid-filled Pressure Gauges

Premium pressure gauges designed for reliability and long service life, available with chrome or black bezels. Case material is Zytel® nylon. Made in the USA.

Available with Gauge Adapter or quick disconnect adapters.

Dial Sizes Available

2½ inch dial.

Compact size ideal for tight installations and equipment panels.

3½ inch dial.

Larger dial provides easier readability from a distance.

Why Choose TTP Gauges?

Tough Zytel® nylon case Durable construction designed for demanding service conditions.

Internal case diaphragm Provides temperature compensation to help maintain accuracy, especially at lower pressures.

Fully filled case — no air bubble Ensures stable readings without interference from trapped air.

Non-yellowing instrument fill fluid Maintains a clean, professional appearance over time.

Multiple appearance options Available with black or chrome-look bezel.

Customization available Custom dial graphics, customer branding, and alternate pressure scales available.
